Example

```
function showData(data) {  
    //called multiple times  
}
```

```
function createElements() {  
    //called only once  
}
```

Example

```
let store = {}
```

```
function showData(data) {  
    //called multiple times  
}
```

```
function createElements() {  
    //called only once  
}
```
