Additional Marks

Projection

```
let projection = d3.geoMercator()
```

Latitude, Longitude

projection

x, y (pixels)

Example

```
let p = d3.geoMercator()
```

Example

```
let p = d3.geoMercator()
```

```
d3.select("#marks")  
  .selectAll("path")  
  .data(data)  
  .enter()  
  .append("circle")
```

Example

```
let p = d3.geoMercator()
```

```
d3.select("#marks")  
  .selectAll("path")  
  .data(data)  
  .enter()  
  .append("circle")  
  .attr("cx", p([d.Longitude, d.Latitude])[0])  
  .attr("cy", p([d.Longitude, d.Latitude])[1])
```
